PROFILE

Experienced and motivated Full Stack Developer with over 3 years of expertise in building scalable, user-friendly web applications. Proficient in the MERN stack (MongoDB, Express.js, React.js, Node.js), with a focus on performance optimization and integration of RESTful APIs. Demonstrated ability to work in Agile environments, develop high-quality code, and communicate effectively in daily stand-ups.

SKILLS

Front-End: HTML5, CSS3, Bootstrap, JavaScript, React.js, React Native

Back-End: Node.js, Express.js, MongoDB, Firebase

Tools & Platforms: Git, JIRA, Jest, HighCharts

Cloud Services: AWS, Azure

EDUCATION

Bachelor of Computer Applications (BCA)
Vishwakarma Institute of Information Technology (VIIT), Pune University 2018 - 2021

Higher Secondary School Certificate (HSC)
Vishwakarma College of Arts, Commerce and Science (VCACS) 2017 - 2018

Secondary School Certificate (SSC)
Sahyadri National School 2015 - 2016

EXPERIENCE

- Software Engineer | Aligned Automation | 2022 - Present
 - Built a responsive business dashboard to track sales and purchases across different regions through various charts, graphs, and maps using React.js, implementing dynamic data with HighCharts.

- Integrated RESTful APIs for real-time data fetching, enhancing data accuracy and usability across regions.

- Actively participated in daily stand-ups, where I provided progress updates and collaborated with cross-functional teams to align on project goals, Managed JIRA tracking, and maintained documentation.

- Intern | Aligned Automation | 2021 - 2022

- Gained hands-on experience in frontend and backend development, databases, AWS, and Azure.

- Learned and applied JavaScript, React.js, Node.js, Express.js, and MongoDB.

- WordPress Developer | Sands Tech Solution | 2021

- Developed new web technologies and improved website functionality.

PROJECTS

- Business Dashboard for Sales and Purchase Analysis

- Developed a business dashboard to visualize sales and purchase data across different regions using React.js and HighCharts.

- Implemented various charts to display data trends and insights, enhancing business decision-making.

- Tested APIs for data retrieval, ensuring accuracy and reliability.

- Collaborated with team members using Git for version control and efficient workflow management.

CERTIFICATIONS

React.js (2022): Comprehensive course on dynamic component creation, state management, and lifecycle methods.

Vue.js (2022): In-depth course on scalable single-page applications with Vue CLI, Vue Router, and Vuex.

TypeScript (2021): Fundamental training in types, interfaces, and advanced types for better JavaScript code quality.

JavaScript (2021): Covered ES6+ features, asynchronous programming, and functional programming concepts.
