Aligned Automation | 2022 - Present

Developed a dashboard for clients to track sales and purchases across different regions through various charts, graphs, and maps.

Managed JIRA tracking, maintained documentation, and collaborated with team members to share knowledge and explore new technologies.

Intern
Aligned Automation | 2021 - 2022

Gained hands-on experience in frontend and backend development, databases, AWS, and Azure.

Learned and applied JavaScript, React.js, Node.js, Express.js, and MongoDB.

WordPress Developer
Sands Tech Solution | 2021

Developed new web technologies and improved website functionality.

PROJECTS

Business Dashboard for Sales and Purchase Analysis

Developed a business dashboard to visualize sales and purchase data across different regions/countries using React.js and the HighCharts library.

Implemented various charts to display data trends and insights, enhancing business decision-making.

Tested APIs to fetch data from the database.

Integrated continuous testing with Jest to ensure code quality and reliability.

Collaborated with team members using Git for version control and efficient workflow management.

CERTIFICATIONS

React.js (2022): Completed a comprehensive course on creating dynamic and interactive components, state management, and component lifecycle methods.

Vue.js (2022): Gained in-depth knowledge of building scalable single-page applications with Vue CLI, Vue Router, and Vuex management.

TypeScript (2021): Learned fundamentals including type annotations, interfaces, and advanced types to enhance JavaScript code quality.

JavaScript (2021): Covered ES6+ features, asynchronous programming with promises and async/await, and functional programming concepts.
